24th October, 2023

To All Students

Re: Revised Start Date for Centralized Test in Academic Year 2023/2024

With reference to the subject mentioned above, we would like to express our gratitude for the concerns raised regarding the upcoming test scheduled for October 27th. After careful consideration of the issues brought to our attention, we have identified the following key points:

1. Some students are currently engrossed in finalizing their projects this week.
2. The existing timetable does not allow sufficient time for students to obtain the necessary permissions for the centralized tests.

In light of these valid concerns, we have decided to extend the commencement date of the Centralized test by **ONLY ONE** week, to **November 2, 2023**.

Should you require any assistance or have further inquiries, please do not hesitate to reach out to the Academic Registrar's office.

Yours sincerely,

Bwengye Michael
Ag. AR
